📍 CAMBRIDGE, MARYLAND

Jayla Elise, a talented twenty-one-year-old hailing from Waldorf, Maryland, channels her profound thoughts into poignant lyrics, often delving into topics less frequently discussed. Demonstrating a keen affinity for music from a tender age, Jayla actively participated in theatrical performances, contributed to state choirs, and enrolled in performing arts institutes, all with the aim of elevating her passion to new heights. Embracing the roles of both singer and songwriter, she draws inspiration from her personal life encounters, crafting songs that serve as a comforting and relatable sanctuary for her listeners. Specializing in the R&B and soul genres, Jayla's empathetic disposition enables her to forge deep emotional connections with her audience. Operating as an independent artist, she leverages platforms such as TikTok and various social media channels to enrich her artistic odyssey. Amid the ebbs and flows of life's realities, Jayla endeavors to impart upon the world the tranquility that music has bestowed upon her—a realm where individuals can truly find solace and understanding.
